Name:

Class: Intermediate

Category/Description: Small Bowl – eucalyptus burl and wenge

Ribbon/Award: 2nd

Comments – Form: Heavy – base doesn't work (maybe leave it off). Don't need a ridge at the rim, and the burning detail isn't needed – the wood is beautiful on its own.

Comments – Fit:

Comments – Finish: Outside is good – no finish on the inside, which makes for an interesting contrast. Need to tone down the shine out the outside – it's a bit too shiny.

Comments – General: Nice simple form without the base and rim – really like the shape of the main piece.

Comments – Form:        Nice and simple – good composition

Comments – Fit:           Like how the sapwood is aligned within the piece.

Good choice of finish. Torn grain in the chucking area.

Comments – General:    I like this piece – just needs to be resanded.
